Weekly Worship & reflection

Keeping going when life is hard

What's the toughest situation you have found yourself in?

Who do you rely on when things get tough?

Dear Families,

A wonderful week where the children have had their assessments and the progress they are making is wonderful to see! Please keep reading with your child, or ask them to read independently every day and taking opportunities for maths and science in daily life from shopping, cooking, making journeys to calculating the days, or time until the next exciting adventure or dinner or playdate...

As much as the last couple of years may have impacted on aspects development, our children are capable of bouncing back and we would like them to be at the highest level they can be at, pandemic or not! We want them more than ready for their next steps. So do keep reading and playing and calculating, it all makes a difference and a special well done to the children who have been amazing!

The work on school streets is progressing at speed so although we may have been a bit surprised, it is pleasing to see that the disruption will not be as long as we thought. The link below is one you may be able to use to find out more information about it and even see how you may apply for an exemption if your child has additional needs and is on our SEN register and needs support to be dropped off at school. As much as the changes may present an inconvenience to car drivers, they are focused on keeping the area around the school as pollution and car free as possible during pick up and drop off time for the children. I know that despite the inconvenience, all of us put children first.

Thank you so much for your support in this. [https:// www.towerhamlets.gov.uk/schoolstreetpermit](https://www.towerhamlets.gov.uk/schoolstreetpermit)

Stay safe and enjoy the sunshine, the first day of Spring!
Mrs Smith

Executive Function—focus on Prioritising & Planning

What can they help us with in school?

Prioritising and Planning means deciding which tasks are the most important and making a plan to complete them. Knowing what is important and what isn't.

Learners can...

Have difficulty keeping track of upcoming events; Often miss deadlines and due dates; Have difficulty deciding what is important; Get stuck on small, unimportant details; Struggle to imagine what the finished task looks like

We can: Check in with children on a regular basis to make sure they are not falling behind, Use graphic organisers to help student break down the task into chunks, Use rubrics and checklists, Be benign with the end in mind and encourage learner to picture what the finished task looks like

Students can: Set smaller deadlines along the way; Use graphic organizers to break down the task into chunks; Make sure you know exactly what your task is; Break you task down into steps; What needs to be done first; What things need to happen before other steps.

Celebrating loving hearts and shining lights

MATTHEW 5:16,
"Let your light so shine before others, that they may see your good works and glorify your Father in heaven"

Learning with an open mind

Ephesians 4:32
Be kind to one another, tender-hearted, forgiving one another, as God in Christ forgave you.

Loving with a full heart

Happy Birthday to you!

8th	Georgie
11th	Ethan H
13th	Noah
18th	Johnny
24th	Jaciara
27th	Oscar

Science at St. Saviour's!

This week we have been celebrating 'British Science Week'; the children have had lots of fun learning opportunities and experiences in science. All classes undertook scientific investigations, where they have been working scientifically. The children have had the opportunity to take 'Science Outside' the classroom and into the school grounds. The children have learnt about, wrote biographies and fact-files for some famous scientists such as: Barbara Block, Jess French, George Washington Carver, Pierre Fauchard, Brendan Walker and Stephen Jay Gould. To end this enjoyable and fun week the children have been doing some fantastic art in Science. This year's 'Poster' Competition, was for every child to design an invention to solve a problem in everyday life. The response has been overwhelming, with over 100 entries, so choosing the winners is no easy task, but thank you all for your efforts as they truly are fantastic. Science at St Saviour's is not consigned to just one week, we will be having the Royal Institute of Science visiting later in the year for some exciting work with our children. Science week has been a great success this year and let's hope next year is even better.

Thank you for your continued support of your children's learning in science. Mr Ali

Learning RE through art

This week children from years 2,3 & 4 have been working with an artist 'Tony Hayward' creating silhouettes depicting some biblical stories such as 'Parable of the Good Samaritan' and 'Peter Heals a Lame Beggar'. The pieces of art, when attached to lampshades, will be on display around the school starting with the first one in Mrs Smith's office and then a journey through school to year 6. We look forward to sharing more with you when they are complete.

We love our illuminated stories!

Red Nose Day

WELL DONE

YOU'RE ALL BRILLIANT! TOGETHER, WE RAISED A GRAND TOTAL OF £213.76

At the end of our worship today, we danced our way out to Pharrell Williams "Happy"

Year 6 were stunning with their backward shuffle and spin at the exit whilst from Reception to Year 2 the jiggling, wiggling and super moves were utterly amazing!

Helping others helps all of us! To quote Dolly Parton "No-one became poor from giving" Actually, we are richer for it! Thank you everyone.

Some jokes of the day!

Why did the cow go to the dance? **To show off his MOOOOVES!**

What do you call a one-eyed dinosaur?

A doyouthinkhesaurus!

What did the orange say to the doctor? **It wasn't peeling very well!**

Why was the teachers eyes crossed? **Because she couldn't control her pupils!**

What is yellow, wobbly and on four wheels? **A bowl of custard on a scooter!**

Why did the elephant not like computing? **Because it was scared of the mouse!**

We encourage you to find more jokes to share this weekend and beyond! Thank you children.

Messy Church is on
24th March at 4pm-6pm at
St Nicholas Church,
Dee Street, E14.
Everybody welcome!

COMPLETE AN ARTS AWARD

with the Museum of London Docklands

A FREE creative project for families with children aged 8-12

Work with your child(ren) in achieving a Discover Level Arts Award. Arts Award helps children to grow as artists and each child that completes the award will receive a special certificate.

We invite you to join us for two creative sessions where your family will take part in hands-on activities centred around the theme of food and drink, including a visit to the Museum of London Docklands.

Fri 25 March at Chrisp Street Children's Centre
Choose from either 4-5pm or 5-6pm

Sat 26 March at the Museum of London Docklands (E14 4AL)
Choose from either 10.30am - 12.30pm or 1.30-3.30pm

For further details and to sign up, please get in contact with Andrew Regan at andrew.regan@towerhamlets.gov.uk or call 0207 364 2856
Please note that spaces are limited, so sign up quick!
